We research

We connect

1. Share4Rare brings you closer to **patients around the world**.
2. Here you'll be able to **network** with patients and with other associations.
3. We use **artificial intelligence** to help you build connections in an easy and intuitive way.

OUR MISSION

Creating a transversal community dedicated to rare diseases and carrying out research projects.

We help

1. We know it is normal to have doubts and fears, **help others** have an answer for theirs.

THE MORE YOU GIVE, THE MORE YOU GET!

2. Participate, **get your PO known** and you will get the most out of Share4Rare.

We research

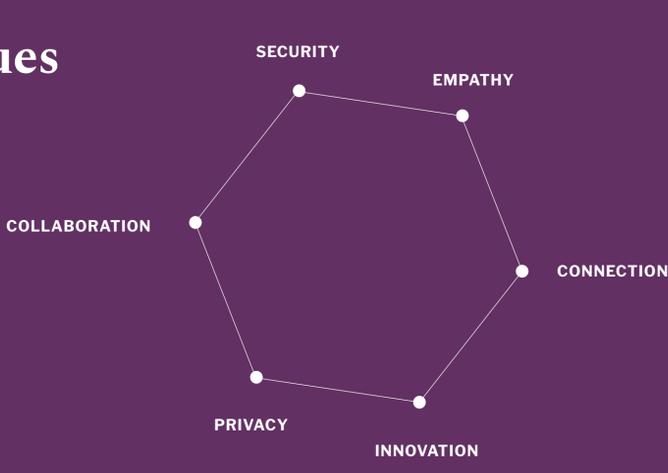

Do you have a research question? **We help you create and lead a study and find participants.**

Information makes us all stronger: participate in the creation of **patient registries.**
